April 15 – 17, 2019, Caesars Palace, Las Vegas, NV

<https://www.trauma-criticalcare.com/tccacs/home/>

## **Trauma Projects**

### Pierce County Fall Prevention Coalition

**Stay Active and Independent for Life (SAIL)** is a strength, balance and fitness program for adults 65 and older. Performing exercises that improve strength, balance and fitness are the single most important activity that adults can do to stay active and reduce their chances of falling. The entire curriculum of activities in the SAIL Program can help improve strength and balance if done regularly.

#### SAIL INSTRUCTOR COURSES:

SAIL COURSES: <http://www.wellnessplacewenatchee.org/sail-calendar>

### Rural Trauma Team Development Course

The Rural Trauma Team Development Course (RTTDC) emphasizes a team approach to the initial evaluation and resuscitation of the trauma patient at a rural facility. With more than 60 percent of the country's trauma deaths occurring in rural areas, the course assists health care professionals in determining the need to transfer the patient to a higher level of care. The one-day course includes interactive lectures on both medical procedures and communication strategies and three team performance scenarios. The intended audience includes individuals who are involved in the care of the injured patient, including physicians, nurse practitioners, physician assistants, nurses, prehospital personnel, technicians, and administrative support. For more course information, contact Julie Rabeau @ [julierabeau@traumatrust.org](mailto:julierabeau@traumatrust.org).

### Impact Teen Drivers Train the Trainers

Impact Teen Drivers strives to expand the pool of proficient facilitators through Train the Trainers— a workshop that empowers first responders, educators, health professionals, and community members to successfully carry out the Impact Teen Drivers program in their communities. Train the Trainers is a workshop for participants to learn about the issue of distracted and reckless driving itself, and become empowered to address it in the most effective manner. This five-hour training conveys the most recent and cogent research concerning teen driving behaviors and attitudes, driving statistics, and Graduated Driver Licensing laws, and translates all the information into actionable solutions. Train the Trainers will provide participants with evidence-based tools to deliver high-energy presentations focused on the dangers of reckless and distracted driving. Participants will receive informational handouts, guides, and templates for facilitating discussion and preparing presentations about teen safe driving for their own reference and to share with other educators, first responders, health professionals, or community members.

**Train-The-Trainers Workshop** presented by South King County Fire Training Consortium 20811 84th Avenue South, Suite 106 Kent WA

Tuesday, January 29, 2019, 9:00am-3: 00pm. To RSVP, please contact: [info@impactteendrivers.org](mailto:info@impactteendrivers.org).

### Stop the Bleed

The purpose of the Stop the Bleed campaign is to build national resilience by better preparing the public to save lives by raising awareness of basic actions to stop life threatening bleeding following everyday emergencies and man-made and natural disasters. Trauma Trust is currently working with medical providers to make bleeding control training available in all areas of the State. If you want to help teach, schedule a group training or find about already scheduled classes contact Trauma Trust Injury Prevention and Outreach, at 253-403-8667 or via email at [julierabeau@traumatrust.org](mailto:julierabeau@traumatrust.org) . For more information on the Stop the Bleed® campaign go to: <https://www.bleedingcontrol.org/>
